

Superior Court of California, County of Santa Barbara

#10 Custom Printed Envelopes Request for Quotes RFQ 2011-04

Questions and Answers

1. Please clarify, would the county be placing the spread orders as a lot, all at once? I.e. a single order of a 6 month (or 1 year) supply for every department, across the board? Or would the bid price need to take into account that each department would order a 6 month supply as its supply is depleted rather than all at once?
 - The Court is planning to place the orders all at once; the full 6 month's supply or year's supply. The Court will work with the vendor to establish which envelopes are a priority and are needed right away. The Court is not requiring that they all be shipped at once, although that is acceptable to the Court as well. The printing and shipments may be staggered according to priority.

2. What PMS number is the shade of brown used for the county envelopes?
 - The Court is open to suggestions on the PMS number for the shade of brown.
